GLENDALE HIRES NEW WATER QUALITY LAB MANAGER

GLENDALE, Ariz. – The city of Glendale has hired James Williams as its new water quality lab manager.

Williams' responsibility is ensuring safe drinking water for Glendale residents. He will oversee the operations of Glendale's state-certified water quality laboratory, supervising a staff of 9 technicians. His responsibilities also include preparation of the consumer confidence report, which is mailed to all households annually, as well as the water quality reports submitted to regulatory agencies on a yearly basis.

Williams comes to Glendale from Piketon, Ohio, where he was employed for 13 years at United States Enrichment Corporation, formerly known as Lockheed Martin Utilities Systems.

Williams holds two master's degrees, one from Ohio University in business, as well as one from the University of Cincinnati in environmental science/chemistry. He earned his undergraduate degree, also with the University of Cincinnati, in biology/chemistry.
